Bronze Fire Hose Couplings Hose Fittings

**Bronze Fire hose couplings
hose Fittings**

BRONZE FIRE HOSE COUPLINGS GUNMETAL FIRE HOSE FITTINGS BRONZE LG2 HOSE NIPPLES INSTANTANEOUS COUPLINGS

Bronze Fire hose Couplings and Fire hose Fittings from LG2 Gunmetal are widely used in fire fighting .Instantaneous Fire Hose Couplings are commonly used by the Fire department for the delivery of water to fire fighting systems and may also be used as an industrial hose coupling. Instantaneous Fire Hose Couplings have a 2 ½" nominal bore head (either male or a female) and terminates in a variety of sizes of BSP female thread, BSP (British Standard Pipe Parallel) male thread and hose tails.The maximum working pressure for an instantaneous fire hose fittings Fire hose couplings is 14 Bar.

Instantaneous Fire Hose Couplings are available in Copper Alloys for corrosive environments such as marine or offshore use. The female fitting incorporates 2 spring loaded barbs and catches - a simple pull on both sides of the arms to release the adaptor. When joined and connected together , Fire Hose Couplings must be used for systems for the coupling to produce a leak free joint.

Material: LG2 Gunmetal Bronze Aluminium Bronze Brass

Size: 2-1/2" BSP
